

# Mobile Phone Statement

## Mobile phone use within meetings at school

When meetings are taking place within school could we politely remind all members of the meeting that the use of mobile phones is not permitted. During meetings if mobile phones are present they should be turned off and placed in view. At no point should any recording of conversations or otherwise take place. This is in accordance with our acceptable use policy which states that school should be a mobile phone free zone, with the exception of staff break times, within permitted areas e.g. staff room.
